## OBJECTIVES :

- To help improve the policy-making capacity of partner cities to support the provision of drug treatment by creating a learning partnership among programs in different cities.
- To build an exchange partnership among cities in Latin America, the Caribbean, and the European Union that will mutually reinforce the knowledge, skills and experience they need to better serve their problematic drug users, attaching particular attention to social exclusion problems, the social and health consequences of drug use, and the safeguarding of human rights.
- To sensitize prosecutors and judges to drug treatment and rehabilitation as an alternative to incarceration for drug-dependent offenders.

## EU-LAC COLLABORATIVE ACTIONS

**2008-2010**

*EU-LAC at work*

During the Santo Domingo EU-LAC Inter-regional City Forum, participating cities discussed and identified a number of actions to be carried out under the umbrella of CICAD's EU-LAC Drug Treatment City Partnership initiative. You can find detailed information about each collaborative action in the left side menu.

Participating cities are working in three groups:

### GROUP 1

Improving drug treatment public policies and inter-agency cooperation

### GROUP 2

Improving drug treatment services in EU and LAC cities

### GROUP 3

Treatment Alternatives to Incarceration for Drug-Dependent Offenders

# EU-LAC DRUG TREATMENT CITY PARTNERSHIPS

## How EU-LAC benefits a city like San Ramón?

- Developing detailed needs assessment in the area of drug consumption
- Strengthening cooperation between the municipality, the national drug commission (ICD/IAFA), and other municipalities
- Training municipal staff members in drug treatment issues and health professionals at the local and regional level
- Observing how other cities from other countries have approached similar obstacles and challenges
- Allowing me as Mayor and my team to participate in a much broader international partnership on issues related to drug consumptions
- Allowing the city to stay one step ahead in designing appropriate drug policies at the local level, and in cooperation with the national actors
