

The 1st

WORLD FORUM AGAINST DRUGS

8-10 September 2008 - Stockholm, Sweden

INVITATION TO THE 1ST WORLD FORUM AGAINST DRUGS

Dear Sir/Madame,

The first ever World Forum Against Drugs, WFAD, will be held in Stockholm, Sweden, September 8-10 2008. The aim is to create an opportunity for people from all around the world working against illicit drugs to exchange ideas and share experiences on how we all can develop our methods and move in the direction of the visionary goal of a world free from drug abuse.

Our ambition is to attract especially those that work at grass root level with the problem of drug abuse – in NGOs, at treatment centres, police officers, self help groups etc. – but also decision makers like politicians and government officials.

The main theme for WFAD is *One hundred years of drug prevention*. Some of the sub-themes that will be discussed are *Drugs for war*, *The Role of Public Opinion*, *Drug-free Treatment*, and *The Environment and Drugs*.

Speakers at WFAD will be some of the most prominent people in the world in the field of anti-drug work, as well as people working practically with local projects and people with personal experiences of great interest.

We expect some 1000 delegates to attend WFAD in Stockholm and we hope that you will be one of them!

Please visit our web site www.wfad08.org for further information.

On behalf of the Organising Committee,

Bob Bergvall
President WFAD 2008
