Dear Friends and Colleagues,

On June 12-13, 2017 the City of Kaunas will host the 24th ECAD Annual Mayors’ Conference “Safe Cities Without Drugs. Preventing, Protecting, Policing”.

It is our great pleasure to invite you to participate in this important conference and to share successful examples of prevention, discuss common problems and find common solutions.

Safe cities without drugs are the cities preventing effectively, policing crime, protecting the citizens and their health.

Contribution of every single specialist, expert and politician is crucial, as every decision influences us. All the decisions together shape the drug prevention policy.

I believe that dedicated and strong people and timely investment into primary prevention can give results.

Among our guests I welcome European cities’ Mayors and politicians, representatives of police, civil servants, addiction specialists, medical practitioners, - all having a possibility to share their knowledge.

I wish you to discover in Kaunas the formula of success in reducing the abuse of illicit substances in our communities!

Mayor of KAUNAS  Visvaldas Matijošaitis

Welcome to Kaunas, Lithuania
June 12-13, 2017
